

# PABLO ALGRANATI

Senior Software Architect & Technical Lead Buenos Aires, Argentina | (+54) 9 11 5592-0888 | pablo.algra@gmail.com

## PROFESSIONAL SUMMARY

Senior Software Engineer and Technical Lead with over 15 years of experience transitioning from full-stack development to high-level **Software Architecture**. Expert in **Adobe Commerce (Magento)** and **Laravel**, with deep expertise in designing scalable infrastructure using **Docker, Redis, RabbitMQ, and ArtemisMQ**. Proven track record of leading high-performance teams and delivering over 40 projects for major LATAM e-commerce companies. Strong background in network management and troubleshooting complex production environments.

## TECHNICAL SKILLS

- **Architecture & DevOps:** Docker, Kubernetes concepts, Nginx, Apache, FrankenPHP, Redis, RabbitMQ, ArtemisMQ, MariaDB, MySQL, Network Management.
- **Backend Frameworks:** Adobe Commerce (Magento 2), Laravel, Symfony, CodeIgniter, Yii.
- **Languages:** PHP, SQL, JavaScript, C++, C#, GraphQL.
- **Frontend:** React, Vue.js, HTML, jQuery.
- **Tools:** Git, CI/CD pipelines, Hardware & Tech.

## PROFESSIONAL EXPERIENCE

### Improntus Remote | 2022 – Present

Technical Lead & Software Architect

- Lead technical teams for major clients, defining software architecture and development standards.
- Architected and implemented infrastructure utilizing **Docker, Redis**, and message queues (**RabbitMQ, ArtemisMQ**) to ensure high availability and scalability.
- Configured and optimized web server environments including **Apache, Nginx**, and **FrankenPHP**.
- Diagnosed complex database bottlenecks in **MariaDB/MySQL** to optimize performance for high-traffic e-commerce sites.
- Mentored developers on **Laravel** and **Symfony** best practices.

### Improntus Remote | 2020 – 2022

Magento Backend Developer

- Specialized in Magento 2 backend development for a software factory environment.
- Participated in over **40 different projects** and personally led the technical delivery of more than 20 initiatives for large LATAM companies.
- Integrated headless frontend solutions using **React** and **Vue** with Magento GraphQL endpoints.

### **HIGA Eva Perón San Martín, Buenos Aires | 2012 – 2020**

Network Manager & Software Engineering Adviser

- Managed the network team and infrastructure for the Eva Perón Hospital.
- Designed and developed a custom online management software for health insurance billing.
- *2020 – Present:* Continued as a software engineering adviser to ensure system stability and provide architectural guidance.

### **Freelance 2005 – 2020**

Fullstack Web Developer

- Provided front-end and back-end development services for diverse clients.
- Built custom solutions using **CodeIgniter**, **Laravel**, **Yii**, **Magento 2**, and the **MERN stack**.
- Managed full project lifecycles, from requirement gathering to deployment and server configuration.
